Good to know about window cleaning

The price depends on the following:

If the home is an apartment or villa.

Number of square meters.

Number of rooms.

If there are windows that deviate from the standard, for example sash windows, large windows, triple-glazed windows, hard-to-reach windows and / or glazed balconies.

Other

Set aside flowers and other loose objects from the window sills and remove any curtains.

Inform us of any damage before cleaning, for example scratched glass and / or windows that are difficult / impossible to open.

Move any furniture or household items that block free access to the windows.

To avoid scratches on window glass, we do NOT use click scrapers when cleaning windows.

The click scrapers can be used after a written confirmation from the customer via email.
